

Owen and Rebecca of Green Planet Grocery have been Greater Camillus Chamber of Commerce members, in good standing, for many years. They are celebrating their 10th anniversary in business! They readily host the GCCC for LEADS networking breakfasts. They also have hosted many events that raise money and support various charities in the Syracuse area. They have provided raffle baskets and gift cards to support local charities. Just a couple of the local charities who have benefitted from Green Planet's generosity are PBS Tel-Auc. and the Carol Baldwin Foundation. GP often hosts Fair Trade events, anniversary specials, and vendor events, so that the community can learn about local businesses who support good health.

Their goal, at Green Planet Grocery, is to help you/us live a more natural lifestyle which may relieve some of our ills and not have us rely so much on pharmaceuticals. GP has affordable, accessible products that will support the 'health nut to the health novice' and look forward to educating the public in ways they can be health conscious.

Green Planet hosts Customer Appreciation events. They have guest speakers who share/educate clients on a variety of subjects related to your health. These events are open to the public. Anniversary celebrations are fun with specials to entice you to try a new product that may just boost your health and improve your choices for a healthier lifestyle and a healthier YOU!

Congratulations to Green Planet Grocery for being our Greater Camillus Chamber of Commerce 2020 Business of the Year!

* We look forward to celebrating with Owen and Rebecca (in the future) at our awards dinner!*
